Photography Testimonials

I very much like your photo website. Very beautiful pictures with vibrant colors. Hand photo painting's are wonderful. The picture of the waterfalls in Costa Rica was very personal to me and remind me of the wonderful times I had when I visited.

Herb Liberman, Business Consultant, Angel Investor, Healdsburg

Penni, WOW! I have looked at hundreds of artist websites over the past many years and I am totally impressed with yours; it is up there with the very best I've ever seen. The images are gorgeous, the hand-painted pix are beautifully done and the content of your images are soulful and information packed. I must have spent an hour mesmerized by your work. And the site is logical and easy to navigate--it is a real tribute to the designer. Congratulations on both your work and the site. I hope it brings you a lot of recognition and sales.

Those photo's transform me to out of body experience back to Beijing summer palace so serene and contemplating. Slowly breezing through your pages and immersing with delights. Thanks for sharing.
